

> First euroAtlantic 757-200 ER has already arrived

28-06-2006 (12h41)[Presstur]

euroAtlantic airways received its first Boeing 757-200 ER of the two of the same series which the company wishes to acquire in compliance with its growth strategy. With this acquisition, the Portuguese charter company headed up by Tomaz Metello known has eight planes.

The new plane of the Portuguese charter company is a "wide-body" and has two Rolls-Royce RB211-53E4 engines, with each debiting 40,000 pounds of thrust.

Inside the cabin the plane has "various video monitors installed throughout the cabin and «LCD's» in the rear baffle", according to a company communiqué.
